PROFILE

Finance graduate (Master's in Finance and Risk Management, University of Florence; BS in Statistics) applying for the Junior Auditor role. My finance and risk management studies gave me a grounding in financial instruments and the analysis of financial risk, and I am keen to build a career in audit. At Saturn Consultants I collected, checked and reported financial data for client projects, and over four years running a branch I kept accurate transaction records with a 98% error-free record. Precise and detail-oriented; advanced Excel; fluent English.
