MUHAMMAD MOHSAN

Quantitative Financial Engineering Analyst

Florence, Italy · Contact details available on request

Based in Florence · Eligible to work in Italy · Available immediately

PROFILE

Finance graduate (Master's in Finance and Risk Management, University of Florence) with a BS (Hons) in Statistics, applying for the Quantitative Financial Engineering Analyst role in the CRO area. My thesis applied dynamic correlation and tail-risk models to multi-asset portfolios, building a solid base in probability, statistics and quantitative risk measurement. I use Python, SQL and advanced Excel for data analysis and model work. Research experience on financial and risk management client projects taught me to check data carefully and report results clearly. Fluent English.

EDUCATION

University of Florence — Florence, Italy
Master's in Finance and Risk Management — Graduation 14 Oct 2026

- Thesis: Dynamic Correlation, Tail Risk, and Optimal Portfolio Allocation: Evaluating the Role of Cryptocurrencies in Multi-Asset Portfolios
