Junior Asset Analyst

Florence, Italy · Contact details available on request

**Based in Florence · Eligible to work in Italy · Available immediately**

## PROFILE

Finance graduate (Master's in Finance and Risk Management, University of Florence) with a BS in Statistics, applying for the Junior Asset Analyst role. I bring quantitative analysis and financial modelling skills from my thesis on portfolio allocation and tail risk, and advanced Excel and PowerPoint for models, estimates and presentations. As a Research Associate Intern I collected and checked financial documents and data for client projects and turned them into clear reports. Over four years managing a business unit in direct contact with customers strengthened my communication skills.
